

Veteran Client?

We can help find specialized services.

Veterans' Services

Did you know?

- ▶ Social Services can help determine client eligibility and help clients apply to rehabilitative programs.
- ▶ Veterans are more likely to experience medical and mental health issues (such as PTSD, Traumatic Brain Injuries, Depression and Anxiety) and are less likely to be diagnosed.
- ▶ Social Services can link the client with individual case management, one-on-one judicial supervision, and a mentor in the community.

Veterans returning from combat may suffer from post-traumatic stress disorder or may have difficulty reintegrating into society. Due to alienation and lack of support, some veterans fall into drug and alcohol abuse or develop mental health issues.

Though not appropriate in all cases, some clients may also benefit from Veteran's Court. This and other tools are available to help veterans with their unique challenges. Mentors may also play a supportive role in the healing process for our veterans.
